

Template letter for Supermarkets:

Dear Mr/Mrs

I write to express concern over the plight of battery hens; whilst I accept I am able to purchase free range shell eggs, I wish to draw your attention to the ever increasing number of people – myself included – who would prefer to purchase processed products containing British free range eggs.

I would therefore be very grateful for reassurance that you will offer a wider selection of processed products that use British free range eggs.

I look forward to hearing from you.

Yours sincerely

YOUR NAME
