Type	Brand	Egg policy	Statement
Sweet	Mr Kipling (Premier Foods)	Barn	<p>The eggs in our Mr Kipling cakes come from barn eggs, which are laid by cage-free hens that can roam, scratch and stretch their wings. They also have perches to roost on and different levels to explore. Animal welfare is important to us, which is why we are committed to the promise we made to Compassion in World Farming in 2012: to only use cage-free eggs in our cakes.</p> <p>http://www.premierfoods.co.uk/our-brands/mr-kipling</p>
	McVitie's (United Biscuits)	Caged	<p>As a minimum we require the eggs to be produced in accordance with the enhanced welfare standards for the protection of laying hens, introduced across the EU at the beginning of 2012 (European Union Council Directive 1999/74/EC). The egg products we buy are either sourced from enriched cage or free-range egg laying systems.</p> <p>We do not identify if the egg used is Free Range on our ingredient lists.</p> <p>We only use a small amount of Free Range Eggs in the UK. This is mainly used in our Teacakes range of products (Free range egg albumen powder).</p> <p>Source: BHWT email conversation with United Biscuits</p>
	Ben & Jerry's (Unilever)	Free range	<p>The eggs we buy for Ben & Jerry's ice cream in Europe come from free-range hens. Free-range standards ensure that laying hens have wholesome, nutritious food, access to clean water, and adequate space to engage in normal behaviours, among other criteria crafted by veterinary professionals.</p> <p>In the USA, we were the first national manufacturer to make a total transition to egg suppliers who use "certified-humane" cage-free methods to raise their egg-laying hens.</p> <p>We pay a premium for our eggs, but we think it's worth it - our ice cream tastes great, and our hens feel great.</p> <p>http://www.benjerry.co.uk/values/how-we-do-business/cage-free-eggs</p>
	Cadbury (Mondelez)	Cage-free	<p>We want all eggs ultimately to be produced without cages, so in 2015 we extended our commitment to use cage-free eggs focusing on biscuits in Europe. Starting from 2016, we'll increase our purchase of cage-free eggs to around 15% of our total egg use in the EU (from about 5%), and we'll work with our suppliers to incentivize a switch to cage-free egg production.</p>

			<p>We already use only cage-free egg products for our European chocolate, as well as biscuits in the Netherlands and Belgium. We recognize this transition will take time and we cannot commit to buy cage-free eggs in markets where there is no commercially viable supply, so our initial focus will be on Europe, where we see the greatest opportunity to make a positive difference.</p> <p>http://www.mondelezinternational.com/~media/mondelezcorporate/uploads/downloads/mdlzcagefreeeggproduction.pdf?la=en</p>
Savoury	Hellmann's (Unilever)	Free range	<p>We only use free-range eggs in our mayonnaise. We are concerned about animal welfare and producing great products made with quality ingredients.</p> <p>http://www.hellmanns.co.uk/help/faq</p>
	Heinz	Mayo - Free range Other products – cage-free	<p>Made with free range eggs and containing absolutely no added colours, flavours, preservatives or artificial thickeners, we hope you like it just as much as we do.</p> <p>http://www.heinz.co.uk/en/products/mayonnaise/products/heinz-mayonnaise</p> <p>Globally, The Kraft Heinz Company is transitioning to using only eggs from hens that live in cage-free environments. In all North American operations, we are on track to achieve this goal by 2025. In Europe, we are committed to using free range eggs for our [Seriously] Good Mayonnaise and we are reviewing the timing of our transition to 100% free range in the few remaining varieties where eggs are used (source: BHWT email conversation).</p>
