

Make a pom-pom chicken

You will need:

Wool Cardboard Scissors
Glue Lolly sticks Beads for eyes

1 First make four cardboard rings using the templates of the following page.

2 Place the two large cardboard rings, back to back.

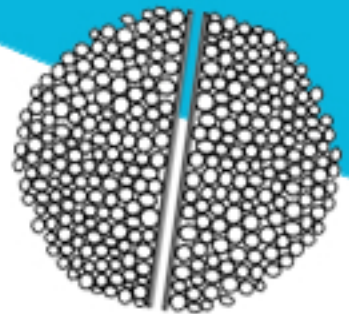

3 Start wrapping wool around the cardboard rings.

4 Keep wrapping the wool around the cardboard until you can't pass anymore wool through the hole.

5 Use sharp scissors to cut every strand around the outside edge of the cardboard template. The strands should start to look like a pom pom.

6 Wrap wool between the cardboard and tie a knot. Then remove the cardboard. This large pom-pom will be your hen's body.

7 Repeat the process with the small cardboard rings to make the head.

8 Glue the pom-poms together. Glue coloured lolly sticks to create the beak, feet and comb. Finally, glue on your beady eyes.

Make a pom-pom chicken

Cardboard templates

Cut each of these ring templates out.

Draw around each twice onto cardboard.

Using scissors cut around the larger outer circle on all of the templates.

Carefully cut out the inner circles too.
You may need an adult to help you.
