

Make a clucking chicken

You will need:

a paper cup 40cm of wool

a paperclip water

a paper towel

decorations

- 1** First make a small hole in the bottom of your paper cup.
- 2** Pass your wool through the hole, then flip your cup upside down.
- 3** Tie the paperclip to the end of the string on top of your cup, so your string doesn't come back through.
- 4** Decorate your chicken with materials of your choice to really bring it to life.
- 5** Fold a small square of paper towel and wet it slightly.
- 6** Hold the cup firmly in one hand, and wrap the damp paper towel around the string near the cup.
- 7** While you squeeze the string, pull down in short jerks so that the paper towel tightly slides along the string.

Can you hear a chicken clucking?
